Leadership team

I have just published a business post on myconnect to advise the team that Rob Priestley has decided to step down from the ASX Board and the Future Fund Board of Guardians to avoid distraction from the ACCC case. Rob has made a great contribution in his short time with us and he will be missed. As you know, appointments to the Board are managed by the Ministers and I imagine it will be some months before there is any news of a replacement.

I am sad to inform you that Rob Priestley has decided to resign from the Future Fund Board with effect from today. As you will see from Rob's media statement here, in the context of the ACCC matter Rob decided to step aside from the ASX Board, and as a consequence felt that it was also appropriate to step aside from the Future Fund Board. Rob has made a great contribution to the Fund and on behalf of the Agency I have thanked him for his support.
